

GSPR Product Safety Information for: Navibutton V2 for Microdexed – 4ms Demo Unit (Desktop preassembled)

Note:

This is a DIY (Do It Yourself) kit Instruction. It is a finished electronic demo unit. Assembly requires no experience with electronic components and soldering.

Scope of delivery

2 Boards and front panel, resistors, capacitors, LEDs, microprocessor, inductors, TFT touch display, ICs and IC assemblies, IC sockets, male and female headers, USB ports, Micro SD card, switches, push buttons, buttons, encoder, rotary knobs, mounting hardware, assembly instructions, BOM (scope of delivery as per QR parts list).

Required Tools and Accessories

- Midi Cable Typ B , USB-B-Cable

Safety Instructions

- Suitable for ages 12 and up.
- Not suitable for children under 12 years of age. Use only under adult supervision.
- Caution: Small parts can be swallowed – choking hazard!
- May contain sharp edges and points – risk of injury!
- Only work with suitable tools on a stable, non-flammable surface.
- Soldering produces harmful fumes – always use a soldering fume extractor.
- ESD protective measures are required to avoid damage to components.
- The manufacturer assumes no liability for damage caused by improper assembly or use.

Intended Use

This product is intended exclusively for DIY use by experienced electronics enthusiasts. It is tested or demo device. After completion, it may only be operated in a safe, low-impedance, low-voltage environment (3.3V-12V DC). CE marking is not required.

Manufacturer Information

Designvorsprung – Nicole Effendy
Steinebergstr. 6
87527 Sonthofen / Bavaria
